WORST ON RECORD.

The Snow, Sleet and Wind Storm at Chicago the Most Severe Ever Known.

CHICAGO, Ill., Feb. 12.—The blizzard of the most approved pattern with snow, sleet and energetic wind swept down on Chicago last night and to-day raged with constantly increasing violence. Great snow drifts blocked the streets. Suburban trains were delayed and snow sweepers were kept constantly in use to prevent the stoppage of the street car lines, traffic on which was badly delayed. The blizzard is the most severe that has visited Chicago for many years.

At noon the wind was blowing seventy miles per hour with indications that the storm would continue throughout the night with the coldest weather of the year. All incoming trains are late and the roads are becoming blocked. The wind rushed around down town corners with terrific force, carrying pedestrains off their feet and injuring many persons. Mrs. Jane Brahany was hurled against a fire plug at Dearborn and Van Buren streets and fatally injured. Many carriages were overturned, but none of their occupants were seriously injured. Lake Michigan is lashed into fury.

Dispatches report intense cold accompanied by heavy snow and wind. Railroad travel is much impeded throughout Missouri, Kansas, Indiana and Ohio.

Charles Chash, driver of a band wagon, was probably fatally injured, the wind overturning the vehicle in the street. His leg was broken and he received internal injuries. Three men at the waterworks crib, four miles out in the lake, were brought face to face with death. The landing platform was smashed by the waves, which washed over the crib structure, drenching the imprisoned men. The telephone line to the station was uninjured and the men telephoned that the building was being shaken frightfully by the wind and waves. No lifeboat could live in the storm and no effort to rescue the men could be made.

During the afternoon the storm increased in violence, the wind at times rising to a velocity of seventy-five miles an hour and the snow growing heavier. It was the worst storm Chicago has ever known, and by 4 o'clock in the afternoon business of all kinds was at a standstill. At that time the big office buildings were practically deserted, people having started for home in order to do their traveling before nightfall. Trains were terribly delayed during the afternoon and to-night most of the eastern roads did not send out trains of any kind.

Owing to the driving snow, which made it impossible to see fifty feet, a wreck occurred on the Lake Shore road at Seventy ninth street and Stony Island Avenue. The fireman, Luther S. Webster of Elkhart, Ind., was caught between the engine and tender and badly crushed. Several cars were knocked into kindling wood.

The new addition to the postoffice was badly damaged, windows were blown in and the glass roof shattered.

The gale from the lake continued furiously well into the night without abatement and before it was driven a blinding snow. Drifts six or more feet deep which formed in the streets along the lake front made them almost impassable.

The high wind caused numerous fires, and it was almost impossible for the firemen to get through the streets The street car tracks were practically blocked by vehicles and the snow was too deep on the side of the street to admit of any progress at all. Four and six horses were put on each fire engine and even then, with the most desperate efforts, one block in five minutes was excellent progress. At 11 o'clock the storm showed signs of dying out and the wind was abating somewhat.

GEN. JOHN R. BAYLOR,

The Noted Indian Fighter and Texas Pioneer, is Dead.

SAN ANTONIO, Tex., Feb. 8.—News reached here to-day of the death, at his ranch in Uvalde county, of Gen. John R. Baylor, one of the most celebrated of the Texas pioneers. He served with distinction as captain of a Texas ranger company before the war and entered the civil strife as commander of a company which he raised in behalf of the confederacy. He rose to be a brigadier general and served a term as military governor of Arizona territory. He was a member of the confederate congress from a Texas district and after the war settled in San Antonio, where he was prominent in local politics. He was one of the most noted Indian fighters on the frontier and killed scores of renegade Indians in hand to-hand conflicts. During his residence in Uvalde he killed a number of desperate characters in that section. He was 72 years old and leaves a wife and ten married children.

Signed By The President.

WASHINGTON, Feb 8.—President Cleveland this evening signed the federal election repeal bill and it is now a law. Representative Tucker of Virginia brought with him to the white house a gold pen especially purchased for use in signing the bill. It had already been used by the vice president and Speaker Crisp in signing the bill and after the president had useed it it became the property of Mr. Tucker. Representative Pearson of Ohio carried the bill from the capitol.

Sovereign Talks.

PHILADELPHIA, Pa., Feb. 10.—J. P. Sovereign, general master workman of the Knights of Labor, whose headquarters are in this city, arrived from the west to-day. He denied emphatically that there had been any charges against Powderly, saying that all such statements are merely newspaper talk and do not amount to a row of pins.

In reference to the injunction suit against Secretary Carlisle to prevent the issuing of bonds, Sovereign said:

"The end is not yet. We intend to make another move in the matter, but have not yet decided what we will do. An appeal has been taken in the case and we intend to push the matter. However, I am not very competent to speak on the subject. Secretay Hays is attending to the matter while I was in another part of the country."

Mr. Sovereign declined to discuss the rumor that the Knights of Labor as an organization are in need of funds.

A Whiskey Line.

DALLAS, Feb. 10.—Dick Whithorne, a boy 16 years old, was fined $50 and costs, for selling whiskey, by a jury in the county court. Dave Willis ran a saloon about one mile from the corporate limits of Lancaster, and Dick was hired to run a hack between the town and the saloon. It was charged that he ran a whiskey line, furnishing regular customers in Lancaster. The saloon keeper was forced to retire from business.

The Seigniorage Bill.

WASHINGTON, Feb. 10.—The strength developed by Bland's silver seigniorage bill leads to the belief that another movement will be made for unlimited silver coinage as the sequel to the passage of the seigniorage bill. Mr. Bland has already introduced a bill "for the free coinage of standard silver dollars."

It went to the coinage committee and was discussed, when Mr. Bland asked that it be temporarly laid aside in order that the seigniorage bill might first be acted upon.

As to the free silver bill, Mr. Bland said to day.

"It has been put aside for the present, but will probably be taken up later. No definite propositions have been made, but it is evident that many members want an opportunity of again voting on the free silver question."

Representative Williams of Illinois, one of the lieutenants of Mr Blond, says he has no doubt that the free silver question, pure and simple, will again be presented to this congress. Quite a number of members who voted for the repeal of the purchase clause of the Sherman law have told Mr. Williams that they would like to have free silver brought to an issue again, in order to reserve their former position. These expressions, together with the strength developed by the seigniorage bill, inclines Mr. Bland, Mr. Williams and their silver associates to give congress one more chance to vote for unlimited silver coinage. In this connection, the fact is being noted that about twenty-five republican members are counted in favor of the seigniorage bill. Some of them are outspoken in favor of following up the measure with a free coinage bill. They reconcile this with their vote to repeal the silver purchase clause of the Sherman act by saying that the latter law hoarded silver in the treasury, while the free silver bill would serve to put the metal or the certificates based on it, in actual circulation.

Representative Tracy of New York, one of the anti-silver leaders, says that the bill for the unlimited coinage of silver could not pass the house.

He points out that quite a number of anti-silver democrats, like Mr. Reilly of Pennsylvania, favor the seigniorage bill because they think it will dispose of the silver question for the next five years, at least. He thinks this feeling that congress is getting rid of the free silver question, is one of the main reasons for the strength of the seigniorage bill.

Iron by Electricity.

BIRMINGHAM, Ala., Feb. 11.—A plant is just reaching completion in Bessemer, Ala., which if it meets the expectation of preliminary and unusually practical tests, will revolutionize furnace operation and iron production in this section. The plant consists of a furnace or kiln so constructed that the ore can be dumped from the trestle into the opening. The ore is then subjected to an intense heat from the burning gas, which is made in a retort in close proximity. The roasted ore with all moisture expelled is passed through rollers and crushed into powder. It is then passed over a belt which is magnetized by a process invented by Edison, which seperates the ore from the silica and surplus calcium and magnetizes it so that it possesses all the properties of magnetic or Bessimer ore and closely assays with that ore.

Daughter (pleading for her lover): "But, father I'm sure it's not my money he is after. He says he would marry me if I was ever so poor."

Stern and Prosaic Parent: "Yes; he looks as if he had an better sense."

Thurston on Hawaii.

WASHINGTON, Feb. 11.—Minister Larrin Thurston addressed a large audience to-night in Founkey Methodist church on Hawaiian affairs and was greeted with great applause. He referred indirectly to the annexation.

He said, in the beginning of his address, that he was invited to come here, if only to show himself as one of those Hawawaiians who were in danger of having their heads cut off.

"Hawaii," he continued, "is not so far away from civilization as many people imagine. As a matter of fact, it is nearer the geographical center of the United States than Washington."

"Hawaii, he declared, is the child of the United States, if ever any country was the child of another. Americans found the island inhabited by a people one step advanced from barbarianism, a formulated and framed language and introduced and arranged laws modeled after those of the United States.

From a religious point of view, set a good example of brotherly love among the denominations, for all protestants that dwelt there worshipped in one church. Even 5,000 mormons are not polygamists. There were no social distinctions, and the natives were as kindly and lovable a race as existed on the face of the globe.

The recent trouble, he declared, had been caused by foreigners stirring up race prejudices.

"To this day," said the speaker, "there is no more danger of an uprising among the natives than there is from the natives in Washington. The danger is from the foreigners, who are a sort of ward politicians from England and America, and who make the poor natives pull chestnuts out of the fire for them."

The speaker then showed how Hawaii found it necessary in 1889 to prohibit the Chinese immigration for self protection, and even self-preservation.

In reply to the question: "What Are We Going to Do," the speaker said: "We are going to cross each bridge when we get to it. We do not propose to allow a country after seventy years of development to lapse again into despotic heathenism.

"We will endeavor to hold the country to the best of our ability, meeting each portion with the help of Almighty God and the American people, and I believe that we shall succeed in keeping Hawaii as the gem of the Pacific ocean, the brightest and best land of liberty in the Pacific ocean."

The big audience vociferously applauded the sentiment.

With All on Board.

HONG KONG, China, Feb. 10.—The British steamer, Hong Chow, which sailed from San Francisco December 8, bound for Soura Baya, has collided with an unkown vessel. After the collision nothing was seen from the Hong Chow of the vessel that was struck and she no doubt sank with all on board.

Lady exhibitor (at close of show): "But good gracious! This is not my baby, sir!"

Check-taker: "Very sorry, madam; it's the last. The checks got mixed up somehow. But I'll take care that it shan't occur again!"

A FEEBLE WOMAN—suffering from nervous prostration, excitability, or weakness, the result of weakness, derangement, or displacement of the special organs—will find health regained after using Dr. Pierce's Favorite Prescription.

PROSPECTUS

Of J. H. Davis' ("Cyclone") Great Book,

"A POLITICAL REVELATION."

This book is just what its title signifies. It treats of the rise and formation of our government, its constitution and policy, showing that the intention of the founders of our government was to inaugurate just such a system as is provided in the populist platform. It shows that corporations are the royal family of the United States, with more power to absorb the wealth of the people than English royalty. The author not only harmonizes the populist platform with the constitution, but he clearly proves that the populists hold the only constitutional theory on money, land and highways. It is a legal and historical review of the principles found in the populist platform, founding every principle on Blackstone and the common law of England, and supporting them by Jefferson, Madison, Clay, and the debates of scores of the framers of our constitution, while the constitution was being formed.

Mr. Davis shows clearly that the populists are the followers of Jefferson and Madison, and that their opponents are the followers of Hamilton and Morris. The volume contains more than a hundred pages of quotations from Jefferson, Madison, Clay, Randolph, Mason and others, proving our position to be strictly in conformity to the constitution.

It arms every man with facts of law and history by which he may overthrow every opponent, and disarm every lawyer who opposes us.

The subjects are treated in that legal, logical and convincing style peculiar to Mr. Davis alone. It will be a text book and standard work as long as the love of liberty exists in the human heart. The line of demarkation between aristocracy and democracy in government is completely drawn. Its principles are fundamental and eternal.

Every patriot should have a copy. Sent in clubs of five or more for $1.25 each. Single copy $1.25. Address all orders to

A YOUNG GIRL'S FORTUNE.

AN INTERESTING SKETCH.

Nothing appeals so strongly to a mother's affection as her daughter just budding into womanhood. Following is an instance: "Our daughter, Blanche, was in years of age, and had formed a cough which settled on her lungs and lost the vitality out of her right arm. She was in such a condition that we had to keep her from school and exercise. Her mother became alarmed, we feared consumption. We had employed physicians, but she received no benefit from them. The first of last August she weighed but 75 pounds, and although she has taken only three bottles of Nervine she now weighs 106 pounds; her nervousness and symptoms of St. Vitus dances are entirely gone, she attends school regularly, and studies with comfort and ease. She has recovered complete use of her arm, her appetite is splendid, and no money could procure for our daughter the health Dr. Miles' Nervine has brought her."

When my brother recommended the remedy I had no faith in patent medicines, and would not listen to him, but as a last resort he sent us a bottle, we began giving it to Blanche, and the effect was almost immediate."—Mrs. E. P. Bullock, Brigham, N. Y.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from opiates or dangerous drugs.

SEE HIM LATER.

He seized her hand ecstatically:
"Fair maid whom I adore,
Queen of my soul, my life, my hope,
Be mine forever more!"
She gazed into his humid eyes,
So soon to fill with sorrow;
"I'll ask my husband, sir," she said—
"We'll let you know to-morrow."
—Kansas City Journal.

THIS is a "soup house" administration.

DELIVER us from anarchy of either extreme.

CLOSE the gate of Castle Garden, especially at night.

IT is thought that the house tariff bill will be presented in the senate next Tuesday.

CONGRESS voted to endorse Grover Cleveland in his efforts to re-enthrone a negro queen.

W. M. C. HILL has been nominated for the Dallas postoffice by President Cleveland.

COTTON 6 cents. Wheat 50 cents. Taxes on the increase. Golly, what good times we are having!

AFTER the repeal of the Sherman law, the car freighted with confidence failed to land at the grand central depot.

MAYOR BARRY of Dallas has disposed of the janitor, in order to economize. This may be all right for the city and the balance of the officers but is rather hard on the janitor.

THE trouble with our government employees is when they wish to economize they dismiss with cheap laborers and let the big salaried, plug hat gents have full sway.

"IN this debate, which has extended over many weeks, one remarkable result has already been reached—a result of the deepest importance to this country. That result is that the bill is now as odious to both sides of the house. It meets with favor nowhere and commands the respect of neither party. On this side we believe that while it pretends to be for protection it does not afford it; and on the other side they believe that while it looks toward free trade it does not go far enough with it.—Gorman speech.

THIS is the year for the preliminary trial of the democratic party. We will wager a carload of pumpkins that it will put in the plea of insanity.

A STUDY IN FIGURES.

If you multiply the same figures by 9 instead of 63 you will have another startling result.

The figures in question are 1, 2, 3, 4, 5, 6, 7, 9. Multiplying these by nine we have:

1 2 3 4 5 6 7 9
9

1 1 1 1 1 1 1 1 1

IT seems that the Rock Island railroad refuses to stop its trains at Government town sites in Oklahoma in order to build up towns established by that road. The matter has been brought up in congress with a view of compelling the road to stop its trains at all stations. After all, the Government is called on, even by the G. O. P's. to interfere with "private property." Government ownership is the only true solution of the question.

THE MCKINNEY DEMOCRAT ought to change its name at once and not sail under false colors. It comes about as near to being a democratic paper as the devil comes to being an angel. It is the rankest sort of a populist sheet.—Greenville Herald.

Yes, and your "democratic" administration comes about as near being democratic as h—l is an ice chest. Remember that there is nothing in a name. Actions prove all. Stroke the moss from your back, join the populists and become of some political advantage to your race.

GOV. HOGG is the first executive Texas ever had that fished and hunted two weeks to where he remained at his office one. But it is all right. He draws his salary just the same. Gov. Hogg is on another junketing tour and this time he is in Angeline county with Judge Perkins. If the last legislature had not created that board of pardons at a tremendous expense to the taxpayers of the state the poor, dear governor would have been worked to death.—Houston Herald.

A FAITHFUL soldier is expected to follow blindly and desperately the commands of his ambitious captain. The party commanders expect the same kind of silent obedience of the free voter in time of peace. Until more American voters slap their political masters in the face and get over the military subserviency that has held them in slavery so long we cannot expect to improve the political condition of the country very greatly.—Dallas News.

A NEW TARIFF SCHEME.

The Wilson bill proposed to admit the yolk of eggs free and tax the white 5 cents per dozen. The attention of foreign hens should be called to this in order that they may arrange their domestic affairs so as to put two yolks into one shell.—Fort Worth Gazette.

GOVERNMENT OWNERSHIP.

The conflict in Oklahoma, between the Rock Island Railroad and the U. S. Government is one among many reasons why the Government should take hold of the railroads.

When the Rock Island built through that territory the Government fixed the depots, but the road, for speculative purposes, refused to stop at these fixed stations and, established depots to suit its own interest.

A bill is before congress to compel this road to stop at the Government stations, but the railroad has its lawyers in the lobby and they succeed in preventing any action by congress on the question.

It is only a question of time when the Government will be compelled to take supervision of, at least, the roadbed and stations, if not the rolling stock, of our whole system.

Under Government control the service will be so much better and cheaper that both owner and shipper will be greatly benefitted.

Under the present method of management, both owner and shipper are imposed upon by a horde of wreckers, retainers, gamblers and speculators.

Such make-shifts as our railroad commissioners can only give partial and temporary relief.

Government control of railways, telegraphs and telephones has become as necessary as control of lakes, rivers, postal roads and postal service.

Happily, the people are being slowly educated on this question and ere long they will move in the right direction.

IS THE POPULIST PARTY DECLINING?

A few days ago we picked up a democratic exchange and read a short editorial which assumed that the populist party was fast playing out. In another column of the same paper we found the following special dispatch:

GOOD-BYE TO DEMOCRACY.

A STALWART MISSOURI DEMOCRAT SEVERS HIS ALLEGIANCE TO THE OLD PARTY.

Hon. A. H. Livingston Comes Out Openly For the New Party—People's Party Men Pleased.

Special to the Kansas City Times (Dem)

WEST PLAINS, Mo., Feb. 4.—Hon. A. H. Livingston, a prominent and late applicant for the United States Attorneyship for the Western District of Missouri, wired to Washington last night asking that his papers be withdrawn, and that he be no longer considered an applicant for the position. In a card in to-morrow's Daily Gazette, he will renounce his allegiance to the old democratic party and cast his future political career with the populist party. His action is causing considerable comment from his old party associates who have fought side by side with him for years, but it is very pleasing to the populist leaders, who regard him as a valuable acquisition to their ranks.

"PRIVATE" JOHN ALLEN BROKEN UP.

WASHINGTON, D.C., Feb. 9.—The Post says that "Private" John Allen, of Mississippi, is all "broken up." He came to Congress with absolute reliance on three things as democratic:

1. That the democratic party was surely for the free coinage of silver.

2. That the Anglo Saxon white man was the born ruler of all colors.

3. That Thomas Brackett Reed was an irrepressible tyrant, without one redeeming trait.

"Last October the democratic party, House, Senate and the President, set up the gold standard and stopped the coinage of silver," he said. "This bothered me, but I held on to the other two. Yesterday we voted to put a colored woman over American white men in Hawaii. That kept me awake all last night, but I held on, trying to find out about the third. This morning I saw it all. The democratic party is for the Clarke faction of the Texas democracy, and Reed is for the Hogg faction. Now I am all right."

You may imagine my state of mind when the Speaker said that Reed, in the middle of an ugly fight, actually decided wrong out of a desire to give his enemies the best possible chance and out of kindness of heart. I am a democrat yet, but I am just this minute out of reasons why."

HOGG AND CLARK.

Oil and Water Will Not Mix.

From the many hundreds of interviews now being published in The Dallas News we quote the following just to give our readers a slight idea regarding democratic harmony in Texas.

C. H. Morris, Winsboro, Hogg man after the Houston convention—If the followers of Clark, Matlock & Co., will indorse the present democratic state administration I am with them, otherwise I am not.

Geo. Herder, Weimer[Clark]: "If the Hogg faction doesn't accept that proposition it will be the result of a loss of 40,000 votes to the democratic party at the polls next fall. I am heartily in favor of harmony. The Hogg wing has a fair proposition."

Nick Miller, Waelder,[Hogg]: "I don't see how we can have harmony as proposed by either Clark or Hogg. When oil and water will mix and when a railroad magnate and a hayseed agree then these matters will adjust themselves. The railroad commission must stay."

W. R. Neal, Seguin, [Clark]: "I think the Clark committee was too liberal. They should have stood pat."

F. J. Reynolds, Schulenburg, [Hogg]: "I have not yet read the proceedings of Matlock's convention. I think the plan for harmony outlined by Governor Hogg should be acceptable to the other side. If the Clark people want to affiliate with democrats in the future they should abandon their organization and come back as individuals."

A. B. Blevins, Rusk, [Clark]: "I saw no plan or disposition for harmony on the part of Governor Hogg; the only relief he offered was that he would not run for governor any more. I think the Matlock committee offers the only plan for democrats; they only ask that democrats advocate democratic principles."

Dr. W. P. Powell, Willis, [Hogg]. "I have no concessions to make, think the democratic vote for governor in 1890 should be the basis.

Max Gens, Giddings, [Clark]: "I like Mr. Matlock's proposition and think the Cleveland vote should be taken as a basis of county representation."

ALLIANCE DEPARTMENT.

[MRS. M. E. FORBES, EDITOR.]

Address all communications to Alliance department, THE DEMOCRAT, McKinney, or Mrs. M. E. Forbes, Allen, Texas.

ILLINOIS E. H., Feb. 11, 1894.

Our alliance at this place is moving along nicely. The people over here know what a good thing is when they see and realize it. That is why most of them are members of the alliance. By the way, they have been educated far enough to know how to vote for their own interests, as ninety-nine per cent in our neighborhood are strictly populists. They were already convinced, but Cleveland's goldbugism and Carlisle's bondism emphatically disgusted them; as I heard a staunch and earnest democrat (that is one that voted for Hogg and Cleveland) say the other day, "God save the country and give us anything in preference to such democracy as the G. O. P. is administering to our people." So you can see at once that they are turning to their own interests.

S. H. W.

LUCAS, Tex., Feb. 11, 1894.

(WRITTEN FOR THE ALLIANCE DEPARTMENT.)

I see the editor of the alliance department thinks that the present position of the Catholic question is a blot on the escutcheon of democracy. It may be true that the present position may not be to the advantage, but is it true that the democratic party is responsible for it? Is it not a fact that the Catholic church has been in existence for centuries? Is it not a fact that the Catholic church has been in existence in the United States for more than a century? Is it not a fact that the Catholic church has been in existence in the United States for more than a century? Is it not a fact that the Catholic church has been in existence in the United States for more than a century

The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Mr. F. Emerson will give a birthday dinner to-morrow, to which many of his old friends are invited.

The McKinney Institute will observe Washington's birthday by appropriate excercises. Trees will be planted on the grounds.

Mr. Albert Favorite, of Arkansas City Kan., wishes to give our readers the benefit of his experience with cold. He says, "I contracted a cold early last spring that settled on my lungs, and had hardly recovered from it when I caught another that hung on all summer and left me with a hacking cough which I thought I never would get rid of. I had used Chamberlain's Cough Remedy some fourteen years ago with much success, and concluded to try it again. When I had got through with one bottle my cough had left me, and I have not suffered with a cough or cold since. I have recommended it to others, and all speak well of it." 50 cent bottles for sale by R. E. Bristol.

Editor Democrat:

You ought to have been over last Monday night. Our people were treated to an able and eloquent lecture by Bro. J. C. Rhodes of Vanzant county. Bro. Rhodes told us no lie when he said he was loaded for bear. As he always does, he just simply took the rag off of the bush. He says that victory is ours without any doubt; that our worst trouble now is, as in past history, to guard against designing men, coming in our party in order to corrupt it again. He proved that every institution that ever existed, originated among the poor people and afterwards was conquered and controlled by the more or less aristocracy in the interest of a few designing men

Rain, rain, rain; mud, mud, mud; when will it dry up again? is the only cry we hear.

Our school under the control of Prof. Wright, is gliding along smoothly.

Mr. W. A. Gray who had his house and contents burned recently, has erected in its stead a beautiful residence. The neighbors came in and assisted in hauling material and building. There is no neighborhood where the people are more charitable than this.

By R O JOHNSON, Deputy.

BONHAM, Tex., Aug. 10, 1893.

I am 61 years old; been afflicted over twenty years with piles, ulcerated bowels, fissures etc., My doctors told me that they could cure. I was growing worse all the time, and was influenced to come to Dr. Reedy, of Bonham, and was treated by him February 20, and I was barely able to make it to his office. He treated me and I was greatly relieved the next morning and have been gradually growing better all the time, and although I am not entirely well yet I feel as hearty and well as I did when I was 30. I would have been in my grave but for him. Come for this

Examination of Teachers.

T A. COLEMAN,
County Supt.

BONHAM, Tex., Dec. 29, 1893

This is to certify that I have been treated by Dr. T. C. Reedy foor rectum trouble, and will say I have not only been benefited but cured, and am a sound man again, and will say to others so afflicted to try him and be convinced as I have been. I have also found him a gentleman in all respects. If he cannot cure you he will hesitate to tell you so. I consider him a safe man to deal with and can recommend him to the afflicted generally.

Very respectfully yours,
JAS. H. WILLIARD.

CHICAGO, ROCK ISLAND AND TEXAS RAILROAD.

"Great Rock Island Route."

Is pleased with Texas and Texas people and hopes the feeling is reciprocal. Business with the new line since its opening has been satisfactory and we will continue to furnish the very best of service to Colorado, Indian Territory, Oklahoma, Kansas, Nebraska, and all points east of the Missouri river.

After all, the comfort of a railroad journey is made up of little things.

The track is smooth and the Pullman sleepers and free reclining chair cars are first-class and "up to date." In addition to the above, which are, of course, absolute necessities, the cars are lighted with gas and heated by steam from the engine. There is plenty of ice water in the tanks and a supply of clean towels in the toilet rooms. On top of it all, we have a lot of courteous employes who do not take it as an insult to be asked a civil question. As we say, these are some of the little things sometimes neglected as may have been your experience. We hope not, however, on the great "Rock Island Route."

We are also anxious to please at headquarters. If you are in need of information and cannot procure it readily of your nearest local agent, drop a line to the undersigned and we will do our best to answer promptly.

TARIFF INQUIRY.

The following circular letter has just been received at THE DEMOCRAT office, from Senator D. W. Vorhees.

COMMITTEE ON FINANCE.
UNITED STATES SENATE.
WASHINGTON, D. C., Feb. 20, 1894.

TO AGRICULTURISTS.

MY DEAR SIR:

In former years when the question of tariff was uppermost in the consideration of the people, circular letters were addressed to merchants, importers, and others, making inquiries as to the character and amount of their business, prices and wages paid, rates of import duties, etc. This was notably the case in 1845, under the direction of Secretary Walker; in 1882, through the Tariff Commission; and, in 1885, under the direction of Secretary Manning.

The replies to such interrogatories furnished valuable statistics and other data, and materially aid in legislating upon the subject of customs duties.

With a view to securing such information, the Committee on Finance submit to you the following questions, which they trust you will formulate replies to, adding such general or special matter as you may be possessed of, and which, in your judgment, will be of value to the committee:

1. What is the character of your product?

2. Do similar foreign products compete with yours?

3. What would be the effect upon your product of a reduction of duty on imports of all kinds?

4. Have the wages which you pay for labor increased or decreased within the past two years?

5. To what extent does your State export agricultural products?

6. What competition do such exports meet abroad?

7. To what extent, in your opinion, are the prices and character of your products affected by the manufacturing industries of your state?

8. Have your living expenses increased or decreased during the past four years?

9. Please give your views on the proposition to restore sugar to the dutiable list.

10. Do the present duties benefit, in any respect, people engaged in growing agricultural products and staples; and, if not, how can they be so modified as to produce this result?

11. State, generally, anything which you believe would be useful to the committee in preparing tariff legislation.

TO MERCHANTS.

1. What class of goods do you deal in?

2. Has your business increased or decreased during the past four years?

3. Upon what class of the population do you depend for your sales?

4. What has been the tendency of purchasers as to the amount of purchases during the past six months compared with previous years?

5. If there has been any depression in your trade, will you explain, in detail, your views as to the causes?

6. How can this depression be counteracted by legislation, or otherwise?

7. What is the rate and character of taxation to which you are subjected?

8. What rate of interest do you pay now, and what has the rate been for the past ten years?

9. Has there been a scarcity of currency in your section of country during the past year?

10. Do you use a cash or credit system in your business?

11. Have collections been quick or slow during the past year?

12. Have any new industries been established in your section during the past three years; and if so, name them?

13. Has the increase in population been largely from immigration?

14. State generally your views as to the best remedy for existing industrial depression.

The committee are desirous that your reply shall give a full expression of your views, and not be restricted to merely it is desired that your answers shall be confined to your own business and be stated concisely.

Publicity will not be given to names or location of business if you so desire.

Very Respectfully,
D. W. VOORHEES,
Chairman.

Refering to the above THE DEMOCRAT would suggest that anyone who feels interested should write their views at once and direct to Senator Voorhees, Washington, D. C

SHE STILL SLEPT.

After Walking off a Train Running Fifty Miles an Hour.

CHATTANOOGA, Tenn., Feb. 11.—On the westbound Memphis and Charleston train, which left here Wednenday night at 7:45, among other emigrant passengers were a brother and two sisters, the younger sister being about 19 years of age and a somnambulist. Just after the train passed Tuscombia, Ala., this girl arose from a seat on which she was sleeping and walked to the rear door of the coach and off the platform. The train was running at between forty and fifty miles an hour, and it was far away from the place where the girl stepped off ere the coductor could be notified. Barlow, a few miles ahead, was the meeting place of the east and west bound trains, and this point was made. Then the two trains coupled together, returned slowly, and with trainmen on the cowcatcher, with lanterns searching for the body. Just as the search was abandoned and the two trains were being uncoupled, some one discovered the form of the young woman at the foot of a thirty foot embankment. On examination she was found to be still soundly sleeping. She was awakened and walked to and boarded the train entirely uninjured.

For the Prohibs.

MERIDIAN, Tex., Feb. 10.—Judge J. M. Hall, before whom the legality of the local option vote at Hillsboro was tried, has decided in favor of the prohibition side, and has so notified the plaintiffs. This turns loose twelve saloons without employment.

Traffic in Girls.

VANCOUVER, B. C. Feb. 11.—Gov. Moresby and India Agent Dalin have been instructed by the government to investigate the sales of Indian girls to white men, with instructions to summarily put a stop to the traffic. A local paper has traced seventeen cases in which Siwash girls have been sold during the past twelve months at prices ranging from $5 per month to $15 cash.

A JOKE ON THE LAWYER.

Wound red How An Impossibly Could Happen.

A good story is being told on one of our most prominent legal lights, and in order that it may not be confined to the profession alone, we publish it for the benefit of the Herald's readers. A few Sundays ago, the gentleman of legal attainments, was out for a stroll, and in his rambles finally landed in the vicinity of the city cemetery. Attracted by the beautiful shade trees and verdant evergreens, and being of a homely frame of mind the legal gentleman scaled the fence and was soon wandering along the paths of the city of the dead, perusing with interest the inscriptions on the various monuments that marks the final resting place of man. His gaze was finally riveted on a handsome stone on which the following epitaph was inscribed: "A good lawyer and an honorable man." It was in this position that he was discovered by one of his brother attorneys, who broke the solemn reverie by asking what it was that caused such deep thought. Pointing his finger at the epitaph the legal light replied: "I was just wondering how it came that these two men were buried in the same grave."—Greenville Herald.

WANTED.

KOLBS FOR GOVERNOR.

Renominated by His "Jeffersonian Democrats."

BIRMINGHAM, Ala., Feb. 8.—The state convention of Jefferson Democrats, or Kolbites, and people's party, was held here to-day, and a full state ticket was nominated to oppose the regular democratic ticket. The peoples' party held their state convention this morning in the Winnie Davis wigwam. A. P. Longshore presided. An invitation was received from the Kolbites to join them in their convention. It was accepted, but not without some dissencions. The peoples party adopted a platform which endorsed the Omaha platform, declares for an income tax, and wants a free ballot and a fair count and opposes the repeal of the 10 per cent tax on state banks. At noon the Kolbite delegates came into the hall and the two conventions combined into one. Judge Gaston, of Butler county, was made permanent chairman.

The following state ticket was nominated:

For governor, Reuben F. Kolb, Montgomery.

Secretary of state, J. C. Fonville, Crenshaw county.

Auditor, W. F. B. Lynch, Macon county.

Treasurer, T. M. Jones, Hale county.

Superintendent of education, J. P. Oliver, Tallapoosa county.

Attorney-general, Warren Reese, Jr., Montgomery.

Capt. Kolb, when he came forward to accept the nomination, was greeted with wild applause, which continued for several minutes. He read his speech, in which he denounced the democracy and reiterated all grievances against that party from which he bolted two years ago.

He was followed by P. J. Bolman, J. C. Manning and others who spoke in the same strain. The convention then adjourned until 7 o'clock tonight, when it reconvened and adopted the following platform:

1. We demand a free vote and an honest count.

2. We demand the passage of the contest law for the state officers.

3. We demand the free coinage of gold and silver on a basis of 16 to 1.

4. We demand the extension of the circulating medium to $50 per capita.

5. We protest against the control of the circulating medium by corporate enterprises.

6. We demand a tariff for revenue, and that the revenue necessary to meet expenses of the government be raised, so far as possible, by tariff on importations, and that the tariff be so levied as to protect the laborers in mines, mills, shops and farms and their products against the labor of foreign countries.

7. We favor a graduated income tax on salaries or incomes in excess of reasonable expenditures for the comfort and necessities of life.

8. We favor more liberal educational facilities for the masses and a better and more efficient administration of the school laws.

9. We demand that convicts shall be removed from the mines.

10. We demand that the present lien laws be so amended as to give miners the same benefits accorded to other laborers and the enactment of such laws as will secure to them the payment of wages in lawful money semi monthly.

11. We favor the [illegible] the office of state inspector of mines and mines and the prohibition of working children under 13 years of age in the mines.

12. We favor the development of our material resources and the upbuilding of our industrial enterprises, and to that end we invite the investment of capital, pledging the enactment of such laws as will afford encouragement and protection to all legitimate investments.

Reasonable.

She—Should you die are you opposed to my remarrying?

He—No.

She—Why, pa?

He—Why should I be solicitous about the disposition of property I shall not own?

FRANK JAMES.

Made Sherman His Headquarters, Says a Kansas City Paper.

A Kansas City paper in a short history of the James boys says:

"Frank James was born in Scott county Kentucky, in 1841, and Jesse in Clay county, Mo., 1845. There were also two other boys and two daughters, one of the latter dying just as she reached the threshold of womanhood. The other girl, Susie, went to live in Nebraska and there met a stockman, Allen Farmer, whom she soon married and they went to Texas, making their home on a ranch near Sherman, wher Frank James often secreted himself in later days when hunted like a wild beast."

Timothy—"Say, ma, did our baby come from heaven?"

Ma—"Of course he did."

Timothy—"Well he was a durn fool to leave heaven for a place like this, and then run the risk of never getting back again.

"I see the villian in your eyes," said a judge to a prisoner.

"Your honor must quit making mirrors of other people's eyes," said the latter.

Eight Firemen Killed.

PARIS, Feb. 11.—A fire occurred to day in the Rue de Rueilly. While the firemen and workmen were engaged in the basement of the burning building a carboy of sulphur of carbon exploded. The flames completely enveloped the party. Eight firemen were killed and seventeen workmen severely injured.

A Preacher Knocked out.

HOUSTON, Tex., Feb. 11.—Buber Preacher and F. L. Underwood attended the Salvation Army meeting this evening. The pulpit orator denounced all the evils and vanities of life, saying women who powdered their faces were immoral and indecent.

Directing his batteries on the male portion of the congregation, he said he meant every word he said; dared anybody to take him up, and said he could lick any ten men in Texas. Underwood arose, walked over and smashed him one. A free fight followed, with Preacher helping Underwood. The riot in the church raged fast and furious until the arrival of the police, who escorted the belligerents to the city lock up. All gave bond for trial to-morrow.

A sensible minister has the following to say of local newspapers:

"Your paper tells you where to go to church, to county court, when to send your children to school, or anywhere you want to go. It tells you [illegible] who is born or married and many other things you would like to know. It tells attention to the public enterprises and advocates the best schools and law and order in your town. It sees from your town and invites immigration and is the first to welcome new comers. Yet, in spite of all these benefits the people say that the newspaper is not half so good as the grocery paper that has no interest in their business whatever."

All for Drink.

There's my money—give me drink! There's the clothing—food and fire for my wife and children—give me a drink! There's the education of the family and the peace of the house—give me a drink! There's the rent that I have earned from my landlord and numerable articles I have from shop keepers—give me drink! Put me on a drink and get more—I will pay for it! There's my wealth of body and peace of mind; there's my heavenly inheritance and the eternal friendship of the redeemed, there is all hope of salvation. I give up my God! I give up all that is great and good, and glorious in the universe! I resign all I ever
